

Programme (*subject to alterations*)

Sunday 20th April 2008

10.00 - 18.00 Registration

09.00 Joint grease cleanliness WG meeting
10.00 Joint grease shelf life WG meeting
11.00 Joint food grade lubricants WG meeting
13.00 Call for Environment WG meeting
14.00 Test methods & rheology WG meeting

18.30 – 20.30 Welcome reception

Monday 21st April 2008

08.15 Welcome *T. Dicken*
08.20 Opening session - celebrating 20 years ELGI
08.55 NLGI presentation *S. Cowan*
09.05 ELGI business meeting
09.20 ELGI working groups annual report *WG chair*
09.30 EuropaLub annual report *J-C. Dufour*
09.45 Coffee
10.00 Lubricants and grease market Portugal *P. Gomes – Galp Energia*
10.30 Linear PFPE oils with improved thermal stability *P. Guarda – Sovlay Solexis*
11.00 High temperature greases *N. Samman – Petro-Canada*
11.30 A new application for a classic bentone grease:
raw material for geological studies *G. Ponti –ENI S.P.A.*
12.00 Lunch
14.00 Development and field testing of a heavy duty synthetic polyurea grease
C. Coe – ExxonMobil
14.30 Naphthenic bright stocks: tomorrow's possibility
Or today's reality? *V. Serra-Holm – Nynas*
15.00 Influence of components blended to a target base oil
Viscosity on liquid phase & lithium grease properties *G. Fish – Lubrizol*
15.30 Visible spectrum measurements for the monitoring of oil status (Part I)
J. Terradillos – Tekniker
16.00 Coffee & close
17.30 Coaches depart for social dinner

Tuesday 22nd April 2008

08.30 Evaluation of low temperature rheological properties of
lubricating greases for centralised systems *S. Nolan – Lubrizol*
09.00 Modelling contact phenomena and those influenced by greases *R.I. Popovici – University Twente*
09.30 Grease tackiness / adhesion *M. Jungk – Dow Corning*
10.00 False brinelling *M. Grebe – University of Mannheim*
10.30 Coffee
11.00 Used grease analysis:
smallest sample volume provides detailed information. *S. Bots – Oelcheck*
11.30 ISO 21469 Certification *S. Krol; C. McLellan– NSF*
12.00 Snacks and beverages
13.00 ELGI members' forum
