

## **REACH Grease Consortium**

Initially under the auspices of the ELGI and now as a stand alone group a number of EU grease manufacturers and importers have established a REACH grease Consortium which meet regularly in Amsterdam with the following scope:

- To agree the substances that the consortium will consider for REACH registration
- To facilitate and manage the cost efficient registration of substances including the utilisation of data.
- To work within pertinent laws, including the REACH regulation and competition law.

Any EU resident grease manufacturer or importer are welcome to join the Consortium.

More details and meeting dates are available from the ELGI office in Amsterdam.
